

Making Dream Comes True

Arjun Mahadev Wagre stays with 6 members in a family. Father (Mahadev) 43 years old work as a tailor, Mother (Rukhmini) 40 years old is a house wife, Elder sister, (Prena) age 18 she is in 12 th standard, elder sister (Aruna) 16 years old studies in 10 th and Arjun is 15 years, old studies in 9 th standard. His dad is the only one who earns. Before joining CYDA, Arjun never took interest in studies and besides this he was not even aware how to talk to people and was little stiff and arrogant as he was studying in a hostel. Due to covid-19 pandemic he had to come back to his home. Due to the pandemic and lockdown his dad's work was not working so well, basically source of income was closed and the family had suffered a lot. In the middle of the pandemic he even lost his grandmother to whom he was really attached emotionally. His father was also not able to clear the hostel fees because of which he found difficulty to attend his online lectures and understand his studies of 8th standard.

He came to know about CYDA from his friend who was a part of YRC his friend said that children who are interested in fitness activities also be there and learn about fitness along with this they have remedial classes. He came to YRC when he was in 8 th standard. After coming to CYDA he was able to see children like him who have suffered in covid as mentioned before Arjun never talked to new people properly or made friends. But when he joined martial art and got responsibility of monitoring the class he was polite and also handles the class. He started taking leadership by coming in front to take lead in activities like volunteering also, by participating in different study and remedial activities where he was not just enjoying the activities but also learning important study topics of different subjects.

He is also a fitness person by keeping this interest he participated in martial arts. Simply compared new Arjun is now more interested in studies and different activities. His behaviour is changes. He is very active person.

He dreams to go in military.
