

Position: Agriculture Expert

Location: Asifabad, Telangana

We are looking for the experienced development professionals for Agriculture for Asifabad block in Telangana District.

Key Responsibilities:

- Conducting farm assessments and providing recommendations for improving productivity, efficiency, and sustainability.
 - Developing and implementing crop management plans, including soil fertility management, pest and disease control, and irrigation strategies.
 - Advising on best practices for livestock management, including nutrition, breeding, and health management.
 - Assisting with the selection and implementation of appropriate agricultural technologies and equipment.
 - Providing training and workshops to farmers and agricultural workers on topics such as crop production techniques, pest management, and environmental conservation.
 - Monitoring and evaluating agricultural projects and initiatives to ensure compliance with regulatory requirements and industry standards.
 - Collaborating with agricultural researchers, extension services, and government agencies to exchange knowledge and promote innovation in agriculture.
 - Staying informed about emerging trends, technologies, and practices in agriculture and disseminating relevant information to stakeholders.
 - Building and maintaining relationships with clients, partners, and industry stakeholders to support business development and networking opportunities.
- Develop a best agricultural practices module and need based proposals on the concerned areas.

Qualifications:

- Bachelor's degree or higher in agriculture, agri-business management, agronomy, crop science, animal science, or a related field.
- Proven experience working in agriculture, with a focus on crop production, livestock management, or agricultural extension.
- Understanding of agronomic principles, soil science, plant biology, and animal husbandry practices.
- Familiarity with sustainable agriculture practices, integrated pest management, and conservation agriculture techniques.
- Experience in conducting farm assessments, developing agricultural plans, and implementing agricultural projects.
- Excellent communication and interpersonal skills, with the ability to effectively engage with diverse stakeholders.
- Strong analytical and problem-solving abilities.
- Ability to work independently and collaboratively in a dynamic and fast-paced environment.
- Proficiency in computer applications, including Microsoft Office and agricultural software tools.
- Valid driver's license and willingness to travel to agricultural sites as needed.
